

VIReC Resources

VIReC provides information about the content, structure, utility, and limitations of VA data to support outcomes and effectiveness research, healthcare operations, implementation, and organizational decision making. Visit the VIReC websites to learn more about these products and services.

Cyberseminars

Offering topical sessions on data, methods, and informatics

Data Documentation

Producing information and guidance about VA data and its use

Data Issues Brief

Disseminating news about VA data, information systems, and resources

VA/CMS Data for Research

Providing Medicare, Medicaid, and USRDS data for VA research methods, and informatics

VA REDCap

Supporting VA primary data collection and management

HSRData Listserv

Facilitating community generated knowledge about VA data

Working with VIReC

VIReC products and services can help identify data sources that are relevant during both Pre-Implementation and Implementation phases. Understanding more about available data can help you develop a data and evaluation plan to monitor your efforts.

The QUERI Roadmap provides a systematic, three-phased approach to help practitioners overcome barriers to implementing effective practice, Pre-Implementation, Implementation and Sustainment. For more details, visit the [QUERI Roadmap](#).
