

## Directory of Implementation Science Training Programs

This training directory lists fellowships, short-term training programs and other resources for training in the field of dissemination and implementation science (and related fields such as KT, KTE, etc.).

The directory is maintained by the VA Center for Implementation Practice and Research Support (CIPRS) based on information received from training program representatives and websites.

Programs in the first section of the directory provide specialized training in dissemination and implementation science. The second section lists programs that offer training in this area as a secondary focus or option. Please send additions and corrections to CIPRS via email ([CIPRS@va.gov](mailto:CIPRS@va.gov)).
