

# Rapid Qualitative Methods for Implementation Practice Learning Hub

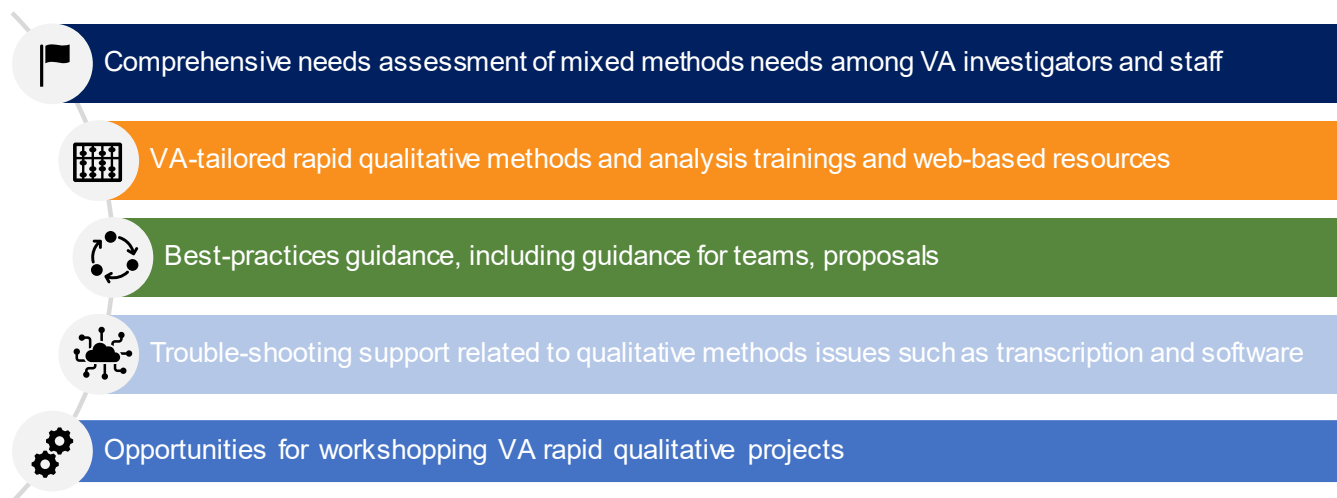

VA

U.S. Department of Veterans Affairs

The **Rapid Qualitative Methods for Implementation Practice Learning Hub** is designed to increase the knowledge and skills of those utilizing rapid qualitative methods across diverse clinical settings and patient and staff populations. We are dedicated to improving the rigor of rapid qualitative methods across both research and quality improvement/operations projects through rigorous data collection and analysis. Enhancing the quality and rigor of rapid qualitative methods will not only serve to set health-system standards but will also allow research to better serve our overall mission of improving Veterans' health and the VA as a learning health system. It will also place VA at the forefront of innovative qualitative health services and implementation research and quality improvement, thereby ensuring Veterans consistently receive evidence-based care.

## FLOW Program

## Who Should Use the Hub's Services?

VA investigators, staff, implementation practitioners, and operations partners interested in using rapid qualitative methods to inform research and quality improvement/operations projects.

## Impacts

The Rapid Qualitative Methods Hub supports the VA priorities of modernizing systems and focusing resources more efficiently by training, supporting, and motivating leaders, providers, and staff from across the nation to identify, address, and solve local problems within delivery system priorities. The Hub team offers the field a wealth of VA research and practice experience across diverse disease states, methodological approaches, professional training, settings, clinical practice areas, and VISNs, which will strengthen the system-wide impact of the Rapid Qualitative Methods Hub.

## Features:

- Six-hour training led by expert faculty:
  - Module 1: Introduction and foundational principles in rapid turn-around qualitative projects
  - Module 2: Step-by step guide to designing rapid qualitative data collection & analysis
  - Module 3: Developing teams and maintaining rigor in rapid qualitative work
  - Module 4: Disseminating results from rapid qualitative projects
- Access to rapid qualitative resources through our Slack page
- Access for trainees who have completed a full training curriculum, to monthly mentoring calls led by rapid hub faculty

## Faculty

**Alison B. Hamilton,  
PhD, MPH**

**Amanda Midboe,  
PhD**

**Christine Kowalski,  
MPH**

**Erin Finley, PhD,  
MPH**

**Allison Lewinski,  
PhD**

**Andrea Nevedal,  
PhD**

**Jessica Young,  
MPH, MSW**
